Hi David,

In response to your question regarding implementation of PayJunction I can only say **WOW!** I literally trained the staff in 5 minutes. We no longer have stacks of credit card receipts as all of our records are a click away on the computer terminal. Balancing the first day took approximately 2 minutes and there is no need to print a lengthy report because it stays on the system. All of my administrative employees now take payments over the phone and email the receipts to the patients. The patients love it and the signature pad is a breeze. I know it will be even nicer when the interface is in with eIVF but I wish I had implemented this 5 months ago when I first inquired about it. Thanks for a great system!

Deb Cruthis
